Vol. 32, No. 20 — Maryville, Missouri — Feb. 25, 1972

Man of wit to give 1-man show

Sharp humor, biting wit, and years of diversified experience, are immediately recognized in the personality of Mr. Heywood Hale Broun, CBS sports essayist, scheduled to lecture at 8 p.m. Monday in the Administration Building Auditorium.

"Broun's career illustrates either a broad spectrum of interest or a deplorable lack of purpose," says Broun of himself in a first-person autobiographical essay, written, oddly enough, in the third person.

Broun's activities in the last two decades have encompassed an array of occupations, ranging from being proprietor and co-proprietor of two jazz record companies to serving as a sports and humor columnist on the New York Star, a newspaper that went out of business "the day the Star put Broun's name on the side of the delivery trucks."

Broun, a seasoned actor, whose name appears in the Who's Who in American Theatre, has pursued the field with determination and has written a book, "A Studied Madness," concerned with both the theatre and sports.

Senate considers faculty evaluation

Controversy arose concerning the proposed teacher evaluation program currently being considered by the Senate—at its Tuesday evening meeting held at the home of Dr. Phil Hayes, dean of students.

Vice president Dennis Bowman asked the Senators, "How extensive do we want this program to be?" He explained that several factors of the program must be resolved. These include whether the information should be published, who would receive the results, how would the program be financed, and whether to have the evaluation done at the end of each semester or at the end of each academic year. Senator Bowman then asked the Senators' advice on making up a questionnaire.

"You should know the how and the why behind an answer," said Senator Carol Miller, "and not just receive a yes, no, good, or bad reply when a question is asked."

Senator Glen Geiger asked, "How would you be able to check to see if an instructor is acting on the results?"

Who should see it?

Members of the Senate then discussed whether the evaluation results should be limited to the

instructor or be made accessible to department heads and administrators.

"Don't drag in the chairman of the department, leave the evaluation up to the student and teacher," commented Dr. John Hopper, Senate adviser. He continued by saying, "What starts out innocently doesn't always turn out that way. I really don't know how the results would work."

A motion was passed to have the teacher evaluation committee meet with the faculty council and discuss and exchange ideas on the program.

Questionnaire to be sent

In other business, it was decided to send a letter questionnaire to residence hall students concerning their opinion of the cafeteria food and general improvements which could be made.

After investigating the food situation, Senator Evelyn Quam of the food committee, cited that there are no refrigerator trucks to transport milk and ice cream from the dairy farm to the cafeterias. This results in the milk becoming warm and the ice cream melting and then being refrozen, she explained.

The home economics staff is being given a copy of a week's meal plan in order to obtain its opinion of how nutritional the meals are.

Bleed-in to be held

On March 15 a bleed-in will be held in the Union Ballroom. Students may donate blood anytime during the day. Parental permission is not needed for a student to give blood.

Senator Carla Campbell moved to amend Article V, Section 1, part B of the By-Laws of the Senate, so

National Players to present drama

National Players, the oldest touring theatrical repertory company in the United States today, will present "The Trial" at 8 p.m., March 3, in the Administration Building Auditorium.

Working out of the nation's capital, a company of actors has gone on the road every year from October until May since 1949 — 22 years of continuous operation which make the National Players the longest-running national classical repertory company in America.

In its long and colorful history, National Players group has offered over 3,000 performances of brilliant and imaginative productions of the classical and modern masterpieces of the stage. Included in the works are those written by Shakespeare,

Sophocles, Shaw, Aeschylus, and Aristophanes. The company has played in 39 states in the East, Mid-West, South and South-west, in Canada, off-Broadway, on network television, by special invitation to the White House, and in nine overseas tours in Korea, Japan, Italy, France, Germany, and the Arctic Circle.

"The Trial," written by Franz Kafka, relates the tale of a man, Joseph K, accused and tried for an unnamed crime. This play aroused some violent controversy

from its first appearance. Some scholars saw in the play a parable of guilt-ridden man; others saw a clairvoyant vision of totalitarian society.

"The Trial" first appeared on stage in 1942, when actor-director-writer Jean-Louis Barrault collaborated with Andre Gide, the giant of French literature, in preparing the stage version.

Well-known directors who have guided National Players' presentations include Walter

Kerr, drama critic of the New York Times; Alan Schneider, director of "Who's Afraid of Virginia Woolf?"; Robert Moore, director of "Promises, Promises", and James D. Waring, director of "Stephen D."

"Now acknowledged as a modern myth, 'The Trial' is one more successful attempt by the National Players to unite its audiences and its productions in the richest theatrical experience possible," according to one reviewer.

12 candidates to vie for Tower Queen honors

Suspense is beginning to mount for the 12 Tower Queen hopefuls as voting will take place Thursday.

Each of the candidates is sponsored by a campus organization. They are Janet Rosecrans, Cheri Skarin, Kim Bell, Kathy Ramey, Carol Shoemaker, Lynn Klingler, Lois Wilson, Evelyn Quam, Sue Kroeger, Susan Bruster, Faith Baker, and Jackie Struthers.

Election of the queen will take place Thursday. Every student except those living in the new dorms can vote in the Union in front of the Senate Office from 10 a.m. to 6 p.m. New dorm residents' voting will take place from 10:30 a.m. to 1:30 p.m. and 4:30 to 6:30 p.m.

Traditionally the Tower Queen is announced at the Tower Dance, scheduled this year for next Friday. At the same time, presentation of new Blue Key and Embers members will be made.

The Tower Dance, featuring "Mom," a local band, will be held from 9 p.m. to 12 midnight.

Bill 427 passed, advanced to House

This week the Missouri Senate passed Bill No. 427 concerning the granting of university status to state colleges by a vote of 23-9.

The Senate bill now goes to the House education committee where it will be considered for recommendation to the House of Representatives to be voted on for perfection or with amendment. Should the bill be accepted, it will be placed on the House calendar to be voted on later.

Students' views of business

A strong majority of college students believe that Maryville merchants generally give them fair to good treatment, according to a recent Missourian poll but agree the shopping situation could be better.

Of the pollees, 38 per cent believe their treatment in local stores has been fair, 40 per cent good, 6 per cent excellent, and 16 per cent poor. Among the pollees, the two most common complaints were that the townspeople tended to stereotype students and treat them differently from residents, and that merchants are too slow in waiting on them. Other complaints included rudeness on behalf of the clerks, distrust and accusations aimed at the student, prejudice against minority races and long hair, and charging too high prices.

Some good; some bad

Seventy per cent of the students cited places where good and bad treatment had been received. Votes of approval were well-distributed among the 35 merchants mentioned for good service. But among those rated as giving poor service, one establishment received a 22 per cent poor service listing. The remaining votes for poor service were widely distributed among 22 merchants.

Asked about the benefits from the college to the community and vice versa, a majority (81 per cent) gave no answer or were of the opinion that the community benefits from the college, but the college does not from the community. A scant 19 per cent saw an economic interchange of some kind, noting such items as the annual street dance, support of teams, and Homecoming activities.

Those commenting that the community benefits are more numerous than those received by the student stated that the college provides a cheap labor supply and a large market. Also noted were such items as the introduction of new and liberal ideas by the students, and the community's gain in unfair economic terms.

Improvements proposed

When queried as to how relations might be improved, the same number of students (81 per cent) saw no way. The remaining students suggested many methods of improving relationships, varying widely in opinion. Lower prices, more and better establishments, more merchandise variety, and later store hours were items that students indicated would help. One student suggested a joint organization of college students and community people while a more

radical minded person proposed "Burn it."

Still another student pointed out that fewer shoplifting incidents would help to improve the student image. Another said, "Merchants should try to be friendlier. They shouldn't follow students all around the store, particularly in the case of black students. Merchants should abolish their stereotyped thought that black is evil."

Perhaps the essence of the situation could be best summed up by this optimistic pollee's comment: "The attitude of the people could be changed to one of acceptance and not merely toleration."

Without refrigerated trucks Are dairy products safe?

MSC dairy employees not only have the task of providing milk and ice cream for the college cafeterias but also the task of delivering the products in unrefrigerated vans, according to Mr. Richard Knudsen, dairy supervisor.

Yes, there are no refrigerated delivery trucks to keep the milk and ice cream cold. That is fine for winter weather; yet even in spring and summer months the vans take the perishable products from dairy to cafeteria, often having to wait in line behind other delivery trucks as long as

To the Editors:

Throughout the history of the education program in the United States, the emphasis has been on the grading of pupil progress by the teacher. I now propose a plan whereby the students could grade or at least constructively criticize the teachers.

So often teachers will present a lesson to the class, assuming the material is digested as rapidly as they present it. This isn't always the case. Teachers are often so skilled and advanced in their field that they assume too much from their students. They know the material, but can't communicate it to the student just

beginning in the field. When questions from the students arise, too often the teacher either continues lecturing or has his back to the students while writing on the board.

My plan would be to have each student every two weeks turn in a critique sheet to the teacher's office, unsigned. If no improvement is made, the student should either visit the counseling center or write a letter to Dr. Foster.

Quite obviously the best plan is to ask questions in class or make an appointment to see the teacher personally. This, however, is not always successful. Many people are afraid to speak up in class, thus leaving themselves in the dark. Also, if a teacher is a very busy one and has few office hours, class conflicts with the student's schedule can prevent the needed help and counseling. This is why the critique sheet is necessary.

Teachers, give it a try. After all, we're paying for a good college education, not a mystery.

Sincerely,
Dave Burns

The days that were

Remember those good old days when...

Men and boys used that greasy kid stuff on their crew cuts.

Everyone wore tight pants half-way up to his knees; sweatshirts, preferably wrong side out, and white socks and tennis shoes or black loafers (depending on the sex).

Chubby Checker introduced the twist.

Weed was what kids pulled out of their mother's flower gardens and pot was akin to pease porridge.

Women were in rat race competition to see who could tease their hair the highest.

Roger Maris was the man of the year.

"The bird" was a robin.

Every kid wanted to grow up and own a convertible.

Knock-knock and elephant jokes were the talk around the water fountain.

At the seventh grade mixer, the girls asked the boys to dance — and not because of women's lib indoctrination.

Science fiction movies were about life on the moon.

Everyone was singing about "the itsy, bitsy, teeny, weeny, yellow polka-dot bikini."

Speeding meant a neighborhood bicycle race.

John Kennedy was going to turn the country over to the Pope, according to certain politicians.

Only farmers wore striped overalls.

Scoring meant hitting a home run...

And the Beatles were little black bugs.

MSC Presidential nomination poll—

See how they run

What would happen if MSC students could nominate the 1972 Democratic Presidential candidate?

In a recent Missourian poll, 100 students were asked which announced candidate they would support in the race among 10 Democratic banner hopefuls. No attempt was made to distinguish party preferences among those sampled.

Of those students questioned, half were male and half female. The results of the separate sex samples were amazingly similar. The overall result showed that Senator Edmund Muskie of Maine is the strong favorite on the MSC campus.

Of the MSC pollees, 60 per cent of the women and 62 per cent of the men favored Muskie, Hubert Humphrey's vice-presidential running mate in 1968. The campus rating for Muskie is well above the 39 per cent figure arrived at by a similar Gallup poll, released in an article entitled "Muskie and the Pack," which appeared in the Jan. 31, 1972 issue of Newsweek magazine.

South Dakota Senator George S. McGovern ranked second in the campus poll, pulling 17 per cent of the student support. In the Missourian poll, McGovern was approved by 16 per cent of the females and 18 per cent of the male pollees.

A brief candidate in 1968 after the assassination of Senator Robert Kennedy, McGovern received only three per cent of the pollees' support in the Gallup poll.

New York Mayor John V. Lindsay, who switched his political affiliations from the Republican to the Democratic party last summer, gained 12 per cent of the student support here — 14 per cent among females sampled and 10 per cent among males.

Lindsay's support across the country showed seven per cent in the Gallup poll. Runner-up Humphrey, former vice president and Senator

from Minnesota, has the support of 29 per cent of those questioned in the Gallup poll.

In the campus poll, Humphrey received the endorsement of only six per cent of the students sampled. His male and female support was evenly divided.

Senator Eugene J. McCarthy, who campaigned unsuccessfully for the Democratic nomination in 1968 and received popular support on college campuses throughout the country, polled only two per cent in the campus survey.

McCarthy's campus support came from four per cent of the males sampled. None of the MSC coeds selected McCarthy as a favorite. In the Gallup poll, McCarthy had the support of eight per cent of those contacted.

A dark horse, Mrs. Shirley Chisholm, black U.S. Congresswoman from New York, received the endorsement of two per cent of students sampled. None of her supporters were males. The Gallup poll showed Mrs. Chisholm to have the endorsement of two per cent of the nation's voters.

Other announced candidates who failed to get support in the student poll but received mention in the Gallup poll are Washington Senator Henry M. Jackson, three per cent; Alabama Governor George C. Wallace, American Independent Party candidate for President in 1968, not measured in Gallup poll; Indiana Senator Vance Hartke, one per cent, and Los Angeles Mayor Sam Yorty, two per cent.

The campus poll showed that there is little difference between male and female student choices for a Democratic Presidential candidate.

It also revealed that MSC students, relatively speaking, are in line with political thinking across the country in their choice for the Democratic nominee. McGovern and Lindsay, however, outpolled Humphrey, second-ranked nationally in the Gallup poll.

Blue Key honors Mr. Rischer

Mr. Gus Rischer, assistant professor of psychology, has been chosen Man of the Month at Northwest Missouri State by Blue Key, honorary men's organization.

The honoree was cited because of his service on local, state, and national levels in the area of drug abuse education.

Last week Mr. Rischer was one of four experts who discussed problems of drug abuse on the National Public Radio Network. His part of the panel discussion "To All Concerned" was broadcasted live from station KXCV-FM, campus radio station.

Mr. Rischer coordinates the MSC student information center that disseminates information about drugs, birth control, and venereal disease. A member of the Nodaway County Commission for Drug Abuse Education, Mr. Rischer has talked recently at meetings of the Maryville DAR, Northwest Missouri Guidance

Association at Tarkio, League of Women Voters, Red Cross, and also a consultant to the State Department of Education Drug Information committee.

Next Missourian dateline: March 10

In keeping with established staff policy during examination periods, the next Missourian will be published Mar. 10.

Staff members will thus be relieved of deadline pressures during mid-terms.

Campus mail or postage due

All campus mail that is placed in the Federal Postal boxes will be cancelled at the post office and forwarded to the addressee with postage due.

Students are not to place campus mail in any Federal Postal box without a stamp. A slot has been made available for campus mail in the campus mail office. Similar slots are located in the dorms.

Dr. Miller commissioned

Dr. Leon Miller, dean of graduate studies, has been commissioned as a Kentucky Colonel, for his service to the American Legion's National Oratorical Contest for high school students, by Kentucky Governor Louie B. Nunn.

Dr. Miller served as chairman and national representative for the National American Legion Oratorical Contest last year.

Duo-film entertainment

Union Board will present film entertainment in the Old Den this weekend for the enjoyment of MSC students.

"Apache Ambush," an action-packed Western, will be shown at 7:30 p.m. Saturday.

"Mary Mary," will be presented at 7:30 p.m. Sunday.

Den film: 'Madding Crowd'

Exquisite photography, a vivid English countryside setting, and impressive use of sound effects heighten the plot of "Far From the Madding Crowd," a film adapted from the Thomas Hardy novel, to be presented at 7:30 p.m. tonight in the Old Den.

Munich orchestra to present concert

The 17 virtuoso string musicians plus the harpsicordist of the Munich Chamber Orchestra will present a concert at 8 p.m. March 6 in the Administration Building Auditorium.

Conducted by Hans Stadlmair, the orchestra will feature David Lukas violin soloist from Wels, Austria.

An unusual sequence added to the group's concerts is the use of authentic instrumentation for the baroque music. When the harpsicord is employed instead of a piano, one of the violinists will switch to a guitar.

Munich's Chamber Orchestra is acclaimed for its sensitivity, musical purity, and tremendous tenderness of tone.

MU medical school accepts MSC grads

Two Northwest State graduate students have been accepted for enrollment into the University of Missouri School of Medicine.

Miss Mary Ann Cross and Bob Johnson received notification of their acceptance from William Mayer, MD, dean of the MU School of Medicine.

Both students were recommended by the MSC pre-med advisory committee which is composed of Dr. Louis Denich, assistant professor of biology; Dr. David Smith, assistant professor of biology; Dr. Dale Rosenburg, associate professor of chemistry; Dr. Sam Carpenter, chairman of the department of chemistry, and Dr. James Lott, associate professor of chemistry.

Both graduates are 1971 baccalaureate degree recipients from MSC. Miss Cross majored in chemistry, and Johnson, who

served as Pre-med Club president during his senior year, is a biology major. He is also a member of Beta Beta Beta honorary biology fraternity. Miss Cross has been a member of the Pre-med Club and holds membership in the American Chemical Society.

The ratio of acceptance to the Missouri University School of Medicine is 1:15.

5 women to be MSC ambassadors

Five MSC coeds will spend six weeks of their 1972 summer vacations in foreign countries as part of the Experiment in International Living (EIL).

Announced Friday night at the Ambassadors' Dance, the Experiment students are Pam Bergmann, sophomore education major, who will be MSC's ambassador to Sweden; Cindy Davis, sophomore majoring in French, ambassador to France; Cathy Gallagher, freshman Spanish and French major, ambassador to Italy; Anna Tortorice, freshman majoring in psychology, am-

bassador to Ireland, and Jan Walker, freshman home economics major, ambassador to Brazil.

The women, shown above, were selected from a list of applicants by the MSC Ambassador Program Committee headed by Miss Camille Walton, director of student activities.

Each of the ambassadors will participate in a three-day course in Putney, Vt., Experiment headquarters, before leaving for their summer homes.

The five alternates are Carolyn Reints, Sydney Chambers, Sue Kroeger, Linda Craven, and Mary Ellen Merrigan.

Fall pre-registration information

All students having under 45 academic hours who have not made an appointment at the Advisement Center for fall pre-registration may still do so by coming Feb. 28 or 29 to Room 207 of the Administration Building.

All juniors and seniors must turn in their advisement sheets at the Advisement Center when they complete their pre-registration process.

Students who have recently completed 45 academic hours and who are planning to get a bachelor of science in education degree should secure their advisement sheet and report to the education office, Room 106, Colden Hall, to complete acceptance to the professional education program.

Ex-cons to enact 'The Cage'

Explosive, far-reaching, and bizarre, "The Cage," a revealing prison drama that is directed and acted by a group of San Quentin ex-convicts, will be presented by Union Board beginning at 7:30 p.m. Monday in Charles Johnson Theatre.

Advance tickets may be purchased in the Union Director's Office.

Following the 80-minute performance, the actors will open discussion to the audience concerning topics ranging from "... why I went to prison" to "what you can do to keep the next man from going."

"The Cage," written by Rick

Cluchey while he was serving a life sentence without possibility of parole for robbery and kidnapping, is an eye-opening experience. Says Clive Barnes of the New York Times, "Strange and wild... I would go to prison for its right to say what it is saying."

The drama exposes various aspects of prison life not normally depicted — the role of religion behind bars, the importance of "reference groups" and the "dozens game," the intricacies of prison homosexuality; the effects of rigid institutionalization upon guards and inmates; and the inevitable development of first offenders into hardened criminals.

First Olympiad to feature talks, tests for high school student

The first Mathematics Olympiad will be held March 9, at MSC in conjunction with the 1972 Mathematics Sectional Meeting of the Northwest Missouri Teachers Association.

Dr. Shirley A. Hill, professor of mathematics education and mathematics at the University of Kansas City, will deliver two addresses. "Teaching Mathematics and Teachers of Mathematics" is Dr. Hill's topic to be discussed with high school mathematics teachers at 10:30 a.m. in Room 102 Garrett-Strong. She will present "Student Talk" at 2 p.m. in the Charles Johnson Theater to a combined audience of high school students and teachers.

This lecture is also open to the public.

The Olympiad is a mathematics contest, co-sponsored by the Theta Mu Gamma Math Club and MSC math department, for high school sophomores, juniors, and seniors from schools in Northwest Missouri. The written exams will begin at 10 a.m. following registration in the Ballroom of the J. W. Jones Student Union, according to Dr. Jerome Solheim, director of the Olympiad.

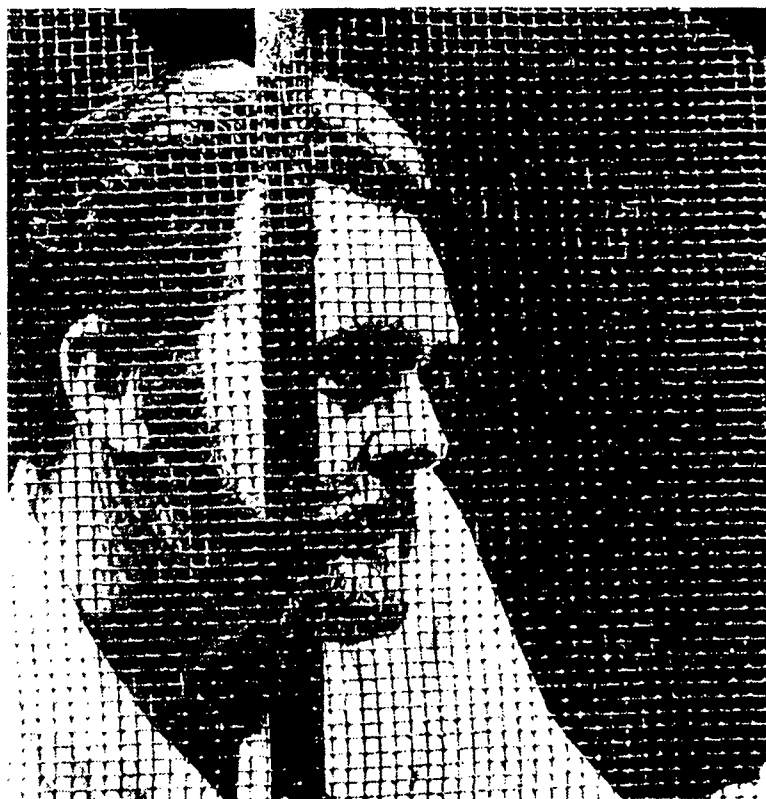

The four classifications of the grade levels are seniors, juniors, sophomores with geometry and algebra, and sophomores with two years of algebra.

One year scholarships will be

awarded to the top two seniors who choose to attend MSC. The scholarships, which total \$200 each, will be received during the freshman year and can be renewed if the students maintain B averages.

Each grade level of a school will compete for team awards if at least three and not more than five students are entered at that level. Certificates of achievement will be awarded to the top 10 contestants and to the top three teams at each grade level.

Members of the Mathematics Club, under the direction of student Tom Lewis, will be hosts to the high school contestants during the affair and will serve as proctors during the tests.

Fall—1972

Northwest Missouri State College

Advanced Registration

Advanced registration for the 1972-73 fall semester will begin on Wednesday, March 1, and terminate on Friday, May 5.

Seniors, juniors, and any students on the B.S. in Education Degree with 45 hrs. or more should meet with their departmental adviser before reporting to the Academic Advisement Center to complete advance registration.

These students may complete their registration process on the following dates:

Seniors	Wed., March 1 to Fri., March 3
Juniors	Mon., March 6 to Wed., March 8
BSE students over 45 hrs.	Mon., March 6 to Wed., March 8

All freshmen and sophomores, EXCEPT those students with more than 45 hrs. on the Bachelor of Science in Education degree, who have not made an appointment for advanced registration, may still do so at the Academic Advisement Center, Room 207, Administration Building.

General Registration

General registration for the fall semester of 1972 will be held in Lamkin Gymnasium on Aug. 30, 1972.

All students planning to register during general registration are requested to study carefully the procedures listed below in regard to their admission and registration.

Students who have never attended Northwest Missouri State College before should apply to the Admissions Office for admission. For undergraduate freshmen, the Admissions staff needs an application, final high school transcript, graduating class rank, ACT or MCPT scores, and the admission fees. Transfer students should forward the application, final college transcripts, and the admission fee. First-time graduate students should make application to the Admissions Office. All first-time students must have their high school and college work on file in the Admissions Office before their registration.

An undergraduate or graduate student who attended Northwest Missouri State College previously but who is not currently enrolled in the 1972 spring or summer semester, must reapply to the Registrar's Office for an application to re-enroll. Any student who has attended another college in the meantime must have a copy of his transcript from that college on file by general registration time.

All applications to the college should be on file at least two weeks prior to registration. Failure in doing this will result in delay for the student in registering.

Pre-registered students who have participated in advanced registration should disregard the following numbered procedures.

All students registering August 30 should observe these guidelines:

1. Complete application and be approved for admission. By being approved for admission you will have a permit to enroll cut for you automatically.
2. Report to the east door of the Administration Building starting at 7:30 a.m. using the following sequence of first letter, last name:

7:30	Seniors
8:00	I-P
9:00	A-H
10:00	Q-Z

3. Secure the following in the first floor hallway:

Permit to enroll
Advisement sheet (does not apply to graduate students.)

4. Secure I.D. card in Cauffield Hall.

5. Proceed from the Administration Building to the southeast door of Lamkin Gymnasium:

8:00	Seniors
9:00	I-P
10:00	A-H
11:00	Q-Z

6. Obtain registration and enrollment forms. When program of academic courses has been approved by your major adviser and you have obtained all of your course cards, fill in all registration forms in ink. Leave advisement sheet with adviser.
7. Proceed through checkout lines. Retain student's copy of schedule of classes. Go to Wells Library and copy a list of textbooks needed. While at the library, check out textbooks.

MATHEMATICS — 18

Math 101 (4), Sec. 1, Arr., Elementary Algebra, 1 hr., Barratt, Math Lab GS113.
 Math 105 (7), Sec. 1, 8:00, MWF, Introduction to Mathematical Thought, 3 hrs., Gutzmer, GS325.
 Math 105 (7), Sec. 2, 9:00, TTh plus 1 hr. Arr., Introduction to Mathematical Thought, 3 hrs., Simonson, GS218.
 Math 105 (7), Sec. 3, 10:00-11:15, TTh, Introduction to Mathematical Thought, 3 hrs., Barratt, GS325.
 Math 105 (7), Sec. 4, 2:00, TTh plus 1 hr. Arr., Introduction to Mathematical Thought, 3 hrs., Ediger, GS217.
 Math 105 (7), Sec. 5, 2:00, MWF, Introduction to Mathematical Thought, 3 hrs., M. McDonald, GS325.
 Math 105 (7), Sec. 6, 4:00, MTTh, Introduction to Mathematical Thoughts, 3 hrs., Gutzmer, GS325.
 Math 108 (8), Sec. 1, 8:00, MTWF, Basic Applied Mathematics, 4 hrs., Solheim, GS124.
 Math 108 (8), Sec. 2, 9:00, MWThF, Basic Applied Mathematics, 4 hrs., Dunbar, GS325.
 Math 108 (8), Sec. 3, 12:00, MTThF, Basic Applied Mathematics, 4 hrs., Ediger, GS124.
 Math 108 (8), Sec. 4, 3:00, MTWF, Basic Applied Mathematics, 4 hrs., Barratt, GS124.
 Math 110 (12), Sec. 1, 10:00, MWF plus 1 hr. Arr., Finite Mathematics for Business, 4 hrs., M. Kenner, GS218.
 Math 111 (16), Sec. 1, 10:00, MWF, Finite Mathematics I, (Concurrent enrollment with Math 120), 3 hrs., Staff, GS132.
 Math 111 (16), Sec. 2, 12:00, TTh plus 1 hr. Arr., Finite Mathematics I, (Concurrent enrollment with Math 120), 3 hrs., Bahnemann, GS217.
 Math 111 (16), Sec. 10, 9:00, D, Finite Mathematics I, (For students weak in HS background), 3 hrs., G. McDonald, GS124.
 Math 111 (16), Sec. 11, 12:00, D, Finite Mathematics I, (For students weak in HS background), 3 hrs., Dunbar, GS325.
 Math 112 (17), Sec. 1, 10:00, MWF, Finite Mathematics II, 3 hrs., M. McDonald, GS325.
 Math 112 (17), Sec. 2, 1:00, MWF, Finite Mathematics II, 3 hrs., G. McDonald, GS132.
 Math 120 (20), Sec. 1, 8:00, MWF, Intuitive Calculus I, 3 hrs., Staff, GS324.
 Math 120 (20), Sec. 2, 10:00-11:15, TTh, Intuitive Calculus I, 3 hrs., Staff, GS132.
 Math 120 (20), Sec. 3, 1:00, MWF, Intuitive Calculus I, 3 hrs., M. McDonald, GS325.
 Math 121 (21), Sec. 1, 10:00, MWF, Intuitive Calculus II, 3 hrs., Simonson, GS124.
 Math 121 (21), Sec. 2, 3:00, MWF, Intuitive Calculus II, 3 hrs., Gutzmer, GS325.
 Math 211 (18), Sec. 1, 10:00, MWF, Elementary Linear Algebra I, 3 hrs., Ediger, GS324.
 Math 211 (18), Sec. 2, 2:00, MWF, Elementary Linear Algebra I, 3 hrs., G. McDonald, GS132.
 Math 220 (22), Sec. 1, 11:00, MWF, Multivariate Calculus I, 3 hrs., Bahnemann, GS132.
 Math 271 (37), Sec. 1, 9:00, TTh plus 1 hr. Arr., Number Systems for Elementary Teachers, 3 hrs., J. Kenner, GS217.
 Math 271 (37), Sec. 2, 2:00, MWF, Number Systems for Elementary Teachers, 3 hrs., Barratt, GS124.
 Math 310 (140), Sec. 1, 11:00, MWF, Modern Algebra, 3 hrs., M. McDonald, GS325.
 Math 341 (101), Sec. 1, 12:00, MTWF, Mathematical Logic and Set Theory, (For transfer students), 4 hrs., Gutzmer, GS324.
 Math 351 (154), Sec. 1, 9:00, MWF, College Geometry, 3 hrs., Solheim, GS324.
 Math 371 (137), Sec. 1, 8:00, MTThF, Algebra and Geometry for Elementary Teachers, 4 hrs., Dunbar, GS132.
 Math 371 (137), Sec. 2, 12:00, MTWF, Algebra and Geometry for Elementary Teachers, 4 hrs., Solheim, GS132.
 Math 371 (137), Sec. 3, 3:00, MTWF, Algebra and Geometry for Elementary Teachers, 4 hrs., Staff, GS132.
 Math 431 (190), Sec. 1, Arr., Seminar in the History of Mathematics, 1 hr., Bahnemann.
 Math 436 (191), Sec. 1, Arr., Seminar in the Philosophy of Mathematics, 1 hr., M. Kenner.
 Math 471 (138), Sec. 1, 9:00, MTWF, Math. Methods for Elementary Teachers, 4 hrs., Staff, GS132.
 Math 471 (138), Sec. 2, 11:00, MTWTh, Math Methods for Elementary Teachers, 4 hrs., J. Kenner, GS124.
 Math 491 (193), Sec. 1, Arr., Seminar in Mathematical Literature, 1 hr., Simonson.
 Math 495 (195), Sec. 1, Arr., Independent Study, 1-3 hrs., M. Kenner.
 Math 515 (218), Sec. 1, 10:00, MWF, Algebraic Structures I, 3 hrs., G. McDonald, GS112.
 Math 518 (215), Sec. 1, 1:00, MWF, Number Theory, 3 hrs., Simonson, GS112.
 Math 520 (220), Sec. 1, 2:00, MWF, Advanced Calculus I, 3 hrs., Bahnemann, GS112.
 Math 525 (225), Sec. 1, 12:00, MWF, Complex Variables, 3 hrs., Staff, GS112.
 Math 561 (260), Sec. 1, 9:00, MWF, Applied Mathematics I, 3 hrs., Staff, GS112.

FIRST BLOCK

Math 480 (199), Sec. 1, 9:00, 10:00, TTh, Methods in Secondary School Mathematics, 2 hrs., Solheim, GS324.
 Math 486 (192), Sec. 1, Arr., Seminar in Math Education Literature, 1 hr., Staff.

MUSIC — 19

Mus 101 (10), Sec. 1, 9:00, MWF, Fundamentals of Music, 3 hrs., F. Mitchell, FA116.
 Mus 101 (10), Sec. 2, 10:00, MWF, Fundamentals of Music, 3 hrs., J. Smay, FA108.

Process for Auditing a Course

It is necessary for all students who plan to audit a course to complete a Petition for Course Audit. This form may be obtained in the Advisement Center and returned there, upon its completion.

The terms of auditing a course are such that (1) a student must enroll and pay fees for the course audit as he would for courses for which he wishes to receive credit, (2) a student must decide prior to the beginning of the term whether or not the course will be taken for credit. A student may not begin a class and decide later to change to an audit, (3) a student may not take a course for credit after he has audited the course.

If a student enrolls in a class for audit purposes and neglects to file a Petition for Course Audit, he will receive an "F" for the amount of credit of the course.

Model UN delegates to represent Burundi

Thirteen MSC students will represent the southeastern African country of Burundi at the four-day Midwest Model United Nations this week in St. Louis.

The Model UN is an educationally designed program to promote interest and understanding of nations of the world and their politics. It is set up as an hypothetical situation that calls for the delegates to use creative diplomacy to solve world problems.

As representatives of the newly independent (1962) Burundi, the MSC students have been researching the country's history, resources, people, and government. Major problems facing Burundi are those that most poor, underdeveloped former colonies experience. In addition there is an internal tribal dispute between the powerful Watutsi and the Buhutu. Burundi, one of the non-

permanent members of the Security Council, "is one of the young nationalistic countries in Africa that has taken the lead in indicting imperialistic countries that are denying rights to minority group," according to Mr. Tim McDowell, faculty adviser for the delegation.

Tom Jones will act as Burundi's head delegate. Jan Bechen and Tom Vigneri are delegates at large.

Each of the remaining delegates is a member of one of the four main committees, the Special Political Committee, the Social, Humanitarian and Cultural Committee, the Trusteeship Committee, or the Political and Security Committee.

The additional delegates are Doug Wagner, Richard Cole, Jeff Peters, Aboussou Djahi, Dave Dunlap, Jennifer Hunt, Bernard Mitchell, Rebecca Stone, Jim Harris, and Cheryl Lamar.

Accolades for 'Mary Stuart'

By Dr. Frank Grube
guest reviewer

Having played Mortimer in a German language undergraduate production of "Mary Stuart" many years ago, your reviewer saw the translated Schiller play at the college auditorium last Friday night with an expert, somewhat jaded eye. Let's face it: Schiller's German is heavy, and the translation wasn't exactly mod.

Taking the language for what it is, the cast worked it out admirably, good acting and clear diction overcoming and breaking through a considerable part of the overloaded phraseology. Anita Cox certainly broke the generation gap with a very clear presentation of a haughty and jealous Queen Elizabeth.

But it was on Mortimer that your scribe's eyes were glued. James Korinke had one hundred per cent empathy from this corner. From the opening appearance from back stage — the line remembered still is "Man ruft euch, Oheim!"; in the translation something like, "Somebody is calling for you, uncle" — until Mortimer stabs himself as he is about to be arrested, we suffered together. From a never-to-be forgotten past came shadowy, rude laughter. For all the varied costuming that marks the present-day college scene, brightly colored tights and stockings wrinkling at the knee still fail to bring out the best in a man. But Korinke's Mortimer carried on, a hair-brained young man defiantly standing by his love and his religion against the establishment. We salute his art and hope that we did anywhere nearly as well.

Miss Sinn stars

Back from the distant past comes the memory of the girl who played Mary Stuart. She got all the accolades for weeks, even years, after the performance. People probably still say to her — those who are still among the living and who may run across her — "Jean, you were wonderful as Mary Stuart." Well, Carla Sinn can envisage such a future, because her Mary was the warm, passionate young woman that Schiller intended her to be. Even at the tear-drenched catastrophe, she carried

herself above the maudlin and remained deeply human.

Also, let's hear the praise for Anita Cox, who had to come out again after the tear-jerker scene and play an anti-climax bit, somehow remaining the Elizabeth of the earlier part of the play. Those who are accustomed to enjoying Miss Cox as a comedienne — and she is good at that, isn't she? — were delighted with her serious acting. How versatile can you get?

The play has too many courtier parts that your reviewer must fall flat on his face at this point. Either that or request the entire edition of the Northwest Missourian for complete coverage. To be singled out are the inhuman, calculating Burleigh, played by Charles Saunders, and the sympathetic, concerned Paul Sherbo as Shrewsbury. Again good acting and enunciation brought out these parts, on which the plot of the play depends.

Schiller used Leicester as a part-time villain and made the role a difficult one to interpret. Fred Honeyman did as well as can be expected with this fickle characterization. Other courtiers, Pat Hennessy as Paulet, Bill Bone as Divison, Michael Maffin as Kent, and Ted Chandler and Duane Robison as French envoys, filled in the backgrounds without flaw.

Linda Craven in the minor role of Mary Stuart's nurse, handled a touchy assignment with a balanced performance. Speech after speech is loaded with sickening sentiment, but somehow Miss Craven made it all sound right.

And a word about the stage setting. One who acted before nothing but drapes can appreciate the beautiful scenery constructed for this play. All hail to Dr. Fulsom, Mr. Shestak, for their artistry!

This excursion into the past, not only the historic one of Elizabeth's reign but your reporter's own, was an enjoyable and worthwhile experience. Perhaps the rest of the audience — not too numerous, by the way — did not share as richly in the performance, but the reception was definitely on the favorable side. The speech department deserves a special citation for attempting a play on such a high level.

Miss Camille Walton resigns, leaves more than position

By Betty Emmons

What can be said concerning a woman who is creative, attractive, likeable, ambitious, never too busy to devote time to students . . . and is leaving?

Yes, the always smiling Miss Camille Walton is leaving her position as director of student activities and is changing her title Apr. 15 from Miss to Mrs.

Miss Walton is certified to teach French and received her bachelor's from Radford University, Radford, Vir. Deciding she would rather do the kind of work she is now employed in, she went on at Radford to obtain a master's in guidance and counseling.

The activities head came to Maryville in July, 1970, to begin her duties as assistant dean of women. She later was reassigned as director of student and personnel staff and development last March. Reconstruction of departments again changed her role in August to director of student activities. The latter position, enabling her to deal more directly and in a personal manner with MSC students, has been favored most by Miss Walton as she remarked, "without a doubt."

It is difficult to summarize this director's duties and to judge where her work begins and ends. Miss Walton works with all of the organizations at MSC, insuring that the advisers of each know what should be done. Her main goal here has been for "student benefit from the organizations on campus." She has also been busy laying the groundwork for organizing the calendar of events, which will have to be further developed by her successor, who will be assigned sometime in June.

Besides her main duties, Miss Walton is kept constantly busy as adviser to the Senate, Union Board, IFC, and Panhellenic Council. She

was also director of the Leadership Workshop held recently and has headed the Ambassador Committee.

The congenial MSC administrator is eagerly awaiting the return of her husband-to-be from Vietnam who is an engineer in the service. After a few more years of being a Captain's wife, Miss Walton hopes to secure another similar college position, perhaps in the mid-west area.

What can you say about Miss Camille Walton's leaving? Don't go? No, just good luck and a wish that she finds as much joy in her future life as she has given to the MSC campus and students.

Go, Bearkitties!

Red Cross first aid course

Anyone interested in enrolling in the American Red Cross First Aid instructor's course should speak with Mr. Ryland Milner, Lamkin Gymnasium.

Benefit film scheduled

"The American Dreamer," starring Dennis Hopper, will be shown at both 7:30 and 9:30 p.m. March 9 and 10 in the Horace Mann Auditorium.

Admission charge will be one paperback book, which will be sold as a benefit for Maryville Food Cooperative.

Newman Club mass Sunday

Newman Club mass will be held at 11:30 a.m. Sunday in the Charles Johnson Theater. The mass will be performed by The Rev. John Weiss.

Den entertainment is diverse

Union Board is offering diverse entertainment in the Old Den this weekend.

Following the Friday coffee house, two late Den movies, "Mein Kampf," and "The General," a Buster Keaton film, will be shown.

A Den movie, "King Rat," will be presented at 7:30 p.m. Saturday.

Billiard entrant places fourth

MSC's participating in the pocket billiard division of the recent 1972 Region XI Recreation Tournament at Lawrence, Kan., was Roger Goodwin.

Goodwin took fourth place in the double elimination tournament.

Art work on exhibit

Four senior art students are now exhibiting works in the hall of the Fine Arts Building. Creations of Frank A. Neri, Dave Holmes, Brenda F. Tierney, and David C. Brockman will be on display until March 3.

Here's pie in your eye

With hands behind their backs and bibs tied around their necks, eight persons bravely consumed 60 pieces of cherry pie in the George Washington pie-eating contest in the Den Monday noon.

Sponsored by the Delta Zeta social sorority, the "fun-making" project's main objective was to determine who could eat the most pieces of pie in three minutes. The winner was Tau Kappa Epsilon pledge Doug Rinas who downed 14 pieces of cherry pie in the time allotment.

Rinas received a cherry pie and a gift certificate as a reward for his efforts.

Biologists find dry air big pollutant

Number one among air pollutants on campus this semester is dry air, according to students in the Senior-Graduate Biology Seminar who have turned from the study of outdoor to indoor air pollution.

The class meets at 4 p.m. Wednesday with local heating and air conditioning firms to discuss practical solutions to the problem.

In the meantime, MSC students can determine the amount of moisture in the air of their rooms by using the windows as humidity indicators. Using the window glass humidity indicator, one can find the approximate relative humidity present and the recommended humidity rating. The charts at the end of this article show that temperatures below freezing outside should normally cause a small amount of moisture to be present in the lower corners of any unheated single glass window. If the windows are dry, the air is too dry.

Samplings around campus indicate that dry air is every place where there is no means of humidification. The best ventilated and thus the driest building found on campus was the Valk Industrial Arts Building. The most

moist air was found in the De Luce Fine Arts Building, where each air handler has a humidifier. The highest humidity found was 35 per cent in the unventilated growth chamber for the genetics fruit flies located in Garrett-Strong.

WHAT SIZE OF HUMIDIFIER DO YOU NEED?

Outside Air		Inside Air	
°F	pints of water-1000 ft ³ of saturated air (100 per cent relative humidity)	relative humidity if no water added	water that must be added to each 1000 ft ³ of air changed
		35 percent R.H.	25 per cent R.H.
0°	.07 pint	5 per cent	5 pint .4 pint
10°	.1	7	.4 .3
20°	.2	12	.3 .2
30°	.3	20	.2 .1
40°	.4	30	.1 .0

A 10 x 12 x 8 dormitory room is about 1000 ft³. Air changes completely about once per hour. Optimum is 20-40 cubic feet-minute-person or 1,200-2,400 cubic feet-hour. The average house has about 10,000 cubic feet of air space.

that it would require the student court to be composed of six students instead of the present four. Further action will be taken at next Tuesday's meeting.

President Stan Barton reported that the Kansas City Chiefs would not be playing in a benefit

basketball game for the Mark Elliott Scholarship Fund. He said that the Chiefs wanted more money than the maximum amount the Senate offered.

The Playboy Bunnies of Kansas City are presently being contacted to see if they will play in a benefit game.

It was reported that the scholarship money could not be limited to the wrestlers because it might jeopardize scholarships they already have.

On behalf of the Senate, Senator Geiger expressed his thanks to Miss Camille Walton, Senate sponsor, for the time and understanding she has shown the Senate. Miss Walton has resigned her position and will be married.

Dean Hayes will be the new Senate sponsor for the remainder of the academic year.

Next Tuesday's Senate meeting will be aired over KDLX radio at 8:30 p.m. from the Sycamore room of the Union.

Den dance

Union Board is sponsoring a free dance in the Old Den 9 p.m. Saturday. A local group called "Heiland" will be featured.

Staff to evaluate open house policy

Evaluation of the extended open house privileges will be conducted Wednesday by the Student Personnel staff, according to reports at the Monday meeting of the Inter-Residence Council (IRC).

To be considered in the evaluation process are hall residents' opinions concerning the open hours policy. Hall presidents were reminded to urge students to go to Cauffield Hall this week and complete a questionnaire about individual reactions to open house practices.

Some IRC members will meet with the Student Personnel staff to evaluate the program. A letter from IRC to the staff, proposing changes in the evaluation procedure, was read; the proposals were not accepted by staff members.

Individual room refrigerators may be available for students to rent next fall, according to IRC members who discussed offers from Collegiate Products, Inc. Students would pay approximately \$45 per year for the refrigerators which include two cubic feet of storage space and require little electricity and no ventilation.

Students, teachers reduce errors via computers

Computers are now being used on the MSC campus to determine if the South could have won the Civil War, to predict the next 10 generations of a livestock herd, and to foretell an opponent's plays on the football field.

Under the direction of Dr. Ron Moss, the department of statistics and computer science has been working with other departments to develop academic uses of computers on campus. As a result of encouragement of various departments, the staff has produced new uses of the computer in the instructional areas of the campus. The foregoing are only a sampling of what has been done.

Used by Ag classes

Students in a graduate program in soil management under Dr. George Gille are using a computer program to predict soil fertility problems. With consultation of members of the department and data processing, Dr. Gille has written the program for application in his class. The students provide input of various soil conditions, and the computer interprets the soil test result and makes recommendations of the amount of nutrients the soil needs. The recommendations are then modified for the addition of manure, organic soil nitrogen, and the individual requirements of specific field crops.

Dr. Moss has developed simulation programs or modified existing programs for mini-computer use on the Hewlett-Packard computer located in the Garrett-Strong Science Building. Dr. John Ontjes, director of institutional research, has also provided programs for modification to be used in the instructional program. At present, programs are being developed for use in areas of history, in biology, and in a simulation of football.

Dr. Donald Shelby, also in the agriculture department, is working with Dr. Moss and an advanced programming student, Jim Jacobs, on the development of a genetic simulation model. Dr. Shelby will use this program in his classes to develop the ability of the students to select animals to build certain herd characteristics. Since similar programs have proved successful at other colleges, Dr. Shelby and Dr. Moss are quite optimistic about its use at MSC. The program also allows the instructor to evaluate student progress in the area by allowing several years of simulation to be developed within one semester.

Larry Wiegman and Russell Mullen check the results of a computer analysis as Keith Clark feeds in additional information.

In history, a historically accurate simulation of the Civil War is being developed. In this particular program, a student is placed in a position of commanding general at significant battles. The student, by making certain selections as to the use of resources at the battle site, may discover ways he could have changed the course of history.

The simulation is accurate in many areas such as in comparison of men, money, who won the battle, and desertions of men at a particular battle. The program also instructs the student in the history of the battle. Dr. Moss is working with Mr. James Hurst of the department of history in developing the data for historical accuracy of the program.

Obtaining the statistics is quite difficult. The number of men at the battle site, the amount of money available, and other such details must be accurate.

In biology a program concerning the life of a cell in various

environments is being developed for mini-computer use. This program investigates how well the student actually understands the operation of a cell. The cell may die if the student places it in a hostile environment where it is incapable of adapting to its surroundings.

The football simulation places the student in the position of quarterback where he can make plays against the opposing team — the computer. Dr. Moss stated he believes that if statistics were programmed into the computer concerning actual teams, an individual could actually play a game with a team before it faced the Bearcat team. Plays that opposing teams would make under certain situations could actually be simulated (probability-wise) and recorded by the computer.

The Department of Business has also been an academic user of the computer. Mostly under the

direction of Mr. Bill Churchill, manager of data processing, a computerized management decision game called Marketing in Action has been used. This commercial publication by Richard Irwin Publishers has been modified for MSC's operation. Various teams are required to make decisions, and the students can see how product price, advertising expenditure, sales force, and other variables interact in a competitive market model.

Mr. Churchill has also modified a computer approach to accounting, a commercial publication by Southwestern Publishing Co. which needed modification for the MSC computer system. In addition to learning the elements of accounting, students receive exposure to data processing techniques. An advanced version of accounting is also being made available, and trial runs indicate it also will have application to several areas of instruction.

Areas included

Other academic areas are being investigated and simulations being discussed for physics, mathematics, music, and statistics. The interest of faculty members in using computer programs in class determines the effort applied to develop them.

While some programs may be too general or too specific to be used on this campus, members of

the department of statistics and computer science encourage faculty members interested in computer-aided instruction to contact them concerning possibilities for their classes.

Dr. Moss said one problem in developing a computer-adapted academic study is to find a person who knows how to program a computer and knows the area, such as history, well.

Contest open to MSC poets

If you write poetry and have wondered if it merits publication, enter your work in the spring competition of the College Student's Poetry Anthology.

Any college student is eligible to submit his verse. There are no stipulations regarding the form or theme; however, shorter poems are preferred by the judges because of space limitations.

Each poem submitted must be typed or printed on separate sheets and must bear the student's name, home and college address, and the name of his English instructor.

The deadline for submission of manuscripts is April 10. All material entered should be sent to:

Readers' cast to look at man in his habitat

Preparation has begun for a March Reader's Theater, "By things possessed — a look at man in his environment," according to Mr. David Shestak, coordinator of the presentation.

The first segment of the program pictures man, possessor of wonderful things, as a "beautiful organism living on earth in all his magnificence."

"It further reveals that living is a truly wonderful thing because we as human beings can feel and express emotions through aesthetic mechanisms, whereas lesser animals cannot," Mr. Shestak said.

Segment two of the Reader's Theater performance points out that although man possesses wonderful things, he is allowing things to possess him, continued the speech instructor.

Participants selected for the March 13 and 14 presentation include Mary Ellen Merrigan, Mimi Brinton, Ken Craighead, Debbi Ambrose, Bob May, Rick Brumett, Sean McCabe, Terri Winchester, Don Hobbs, Sheri Judd, Elaine McDermott, Wayne Brinton, Bill Bone, Sonia Newman, Diana Mews, and Linda Craven.

Delta Zetas accept nine spring pledges

The Epsilon Rho Chapter of Delta Zeta, social sorority, announces nine new pledges.

Perspective members are Jan Crouch, Debbie Herron, Diane Knowlton, Linda Laeupple, Rhonda Lockman, Debbie Parman, Debbie Pawlowski, Teresa Shonk, and Janet Short.

Janet Greenwood creates TV series

Janet Greenwood, a junior home economics-broadcasting major at MSC, is now the star of a weekly 15-minute television show.

Her 10 shows are being presented each Wednesday at 9:30 a.m. on Channel 10. As a student enrolled in Speech 177, independent study in broadcasting, Miss Greenwood chose to expose herself to the medium of TV as it relates to her major area of study.

Topics to be included in her shows are finishing seams, garnishing, discussing consumer guidelines, baking Easter breads, making candles and candle holders, analyzing insurance needs, and answering questions from viewers. A special program will also be presented about the MSC home management house.

For the past year Miss Greenwood has helped produce and broadcast the radio show, "Today's Homemakers — Men and Women," presented on KXCV-FM.

Mrs. Kathryn Bennett, instructor of speech and theatre, is supervising the independent study.

Science department to sponsor seminar

The science department of MSC will sponsor a Chemistry Seminar March 1 in Room 320, Garrett Strong.

Speaker for the event will be Dennis C. Johnson, assistant professor at Iowa State University. Mr. Johnson is scheduled to speak at 4 p.m. and will discuss the "Studies of Absorption and Desorption of Halogens at Platinum Electrodes in Sulfuric Acid."

At 6:30 p.m. Mr. Johnson will speak in association with the student affiliates of the American Chemical Society. His topic: "A New Detector for High Speed, Liquid Chromatography."

Janet Greenwood goes on the air.

Statistics professor to lecture about mathematics consulting

Dr. Tim Robertson, associate professor of statistics at the University of Iowa will speak on Mathematics Consulting at the fourth Math Colloquium at 4 p.m. Wednesday in Room 102, Garrett Strong.

Dr. Robertson will talk on "Measuring the Middle" at 9 a.m. Thursday in Room 325, Garrett Strong.

His main research interest is density estimation and consistency problems.

Objectives of the MSC math colloquia include providing information and advice to students, student counselors, and college faculties on the present availability of advanced training in statistics for students with high mathematical abilities and encouraging students to seek advanced training.

The math colloquia are oriented toward math and other interested

students and are planned to provide extracurricular activities for all students, said Dr. Arthur Simonson, coordinator.

Dr. Robertson's visit is sponsored by the American Statistical Association, the Biometric Society, and the Institute of Mathematical Statistics and is partially financed by the National Science Foundation.

Coed 'Cats record fourth win

NORTHWEST MISSOURIAN — FEB. 25, 1972 — PAGE TWENTY-THREE

By Carolyn Adams
"Go hard and go to win" was Coach Sherri Reeves' advice to MSC coed basketball stars as they defeated Oregon 71-44 Tuesday evening in Martindale Gymnasium.

The Bearcats started with a burst of energy and took a 37-19 lead at the half. Colleen Means and Debbie Jones led the 'Cats with 14 and 13 points, respectively. MSC's court was transformed into a battlefield of screams, shrill grunts, and occasional snuffles. Amid a great deal of rough play, the Oregon squad made 12 fouls throughout the game. The Bearcats prospered from the foul play and gained 11 points at the free throw line.

Screaming fans witnessed numerous falls, resulting in banged knees, leg cramps, and bruised elbows. These falls and the battles for the ball forced officials Jan Irvin and Nina Wills to call many jumps. During the second half, a five woman pile up called for a jump ball. The coed 'Cats grabbed the ball and headed full speed down the court. Just as Karen Claussen went up for a shot that looked good, she was fouled. Miss Claussen missed the free throw, but an MSC woman snatched the rebound and went up to score two more points.

Although scoring only 44 points, the Oregon squad provided fair competition. Ripley and Shy made some unbelievable efforts to score. The George Blanda of the basketball scene, Oregon's No. 45, attempted a hook shot from the free throw line that resembled a shotput toss and missed. The attempt brought roars of laughter from both players and viewers! Miss Means gave her usual excellent performance by adding 20 points to the final score. Although playing on a bad ankle and knee, Miss Jones scored 17. After several rough falls and a leg cramp, she was finally removed from the game. Verna Wilson put

12 points on the Bearcat scoring pad.

The squad listened well to the advice of Coach Reeves. They played hard and received the win, bringing the season's record to 4-0.

Swing choirs to sing here

MSC's Madraliers will sponsor the Swing Choir Festival for area high schools from 12:30 to 6 p.m. Saturday.

During the afternoon, the schools will perform and receive critiques from James Kimmel, music clinician, and Robert Bender, choreographic clinician.

At 5 p.m., a public concert will be presented in Charles Johnson Theater, with the featured number being a rock oratorio called "The Creation."

Schools participating will be Smithville, Trenton, Cameron, Shenandoah, Iowa, Kansas City, Oak Park, and Bedford, Iowa.

Scholarships are available

During the Junior College Counselors' Day held last week, Dr. Robert P. Foster, president of MSC, announced that a one-year junior college transfer scholarship plan has been developed at Northwest Missouri State for qualified junior college students.

The award will be made upon recommendation of the junior college. Any recipient must have his associate of arts degree from the junior college recommending him and must have a 3.0 grade point average.

Upon MSC's receipt of the nominations of qualified students certificates for the scholarships will be sent to each nominee's junior college for presentation.

Haymes to play concert

Bill Haymes, folk singer from Perryville, Md., will return here to give a concert at 7:30 p.m. Saturday night in a coffeehouse in the Den.

Mr. Haymes also appeared in concert on the MSC campus last year.

The folk singer is serving in the Armed Forces and entertains while on weekend passes. At the Perryville base, he teaches English to army classes.

Haymes will play not only his own creations but also folk songs of Dylan, Pete Seeger, and Joan Baez.

The event, sponsored by the Union Board, is free.

Attention: Student teachers

Seniors, March 6 is the day scheduled for your meeting with school principals and administrators — it may be the most important day of your lives!

The meeting will be held in the Ballroom, where students can confer with the various school staff members in an informal, though efficiently structured, atmosphere. Conveniently chosen, March 6 is the day between the third and fourth block, enabling both the student teachers returning from their schools and those ready to begin their teaching to attend.

As a direct service of the Placement Office, the meeting has been arranged through the coordinated efforts of Mr. Don Carlyle, director of placement; Dr. Frank Grispino, director of student teachers, and Dr. Roger Epley, chairman of secondary education.

New course offered

A new course in education is being offered for students who are uncertain about their interests and qualifications for working in the education field.

Observation and activity in the secondary school 261(61) is offered to give students first hand experience in testing their interests in teaching. The enrollees observe and assist with students in the secondary schools and do some tutoring.

Financial Aid tips

Students desiring financial aid for the 1972 summer term should obtain forms from the financial aids office, according to Mr. Mark Maddox, director of financial aid.

Any student who has been approved for work-study should check with the financial aids office to acquire information on available jobs.

Forms are now available in the financial aids office for the 1972-73 school year.

Phil Siefert drops in two of his career high 25 points in the Bearcats' 83-69 victory over Peru, (Neb.) State in Lamkin Gymnasium Feb. 16.

Siefert leads 'Cats past Peru

Sophomore Phil Seifert led the Bearcats past the Bobcats of Peru State, 83-69, Feb. 16 as he netted an MSC career high of 25 points.

The Bearcats moved to an early 37-33 halftime lead. The Bobcats, whom MSC topped by 18 points earlier in the season, stayed close in the opening 20 minutes on the strength of Guy Lammle's 14 points and Ananias Montague's 12.

In the second period, it was Seifert and the defensive effort of senior Don Nelson, among others, that stymied the Bobcats offensively. Seifert, whose previous scoring high was 15 points against Central of Iowa, Missouri-Rolla, and Southeast Missouri State, scored 16 points.

The Bearcats sealed the verdict when, between the 7:06 and 4:03

mark of the second half, they scored 12 uncountered points and moved to a 77-58 advantage.

The 'Cats have two more conference tests as they play Missouri-Rolla at home Saturday and at Southwest State College, Springfield March 4.

Indoor track, field team seeks third victory today

The Northwest Missouri State College track and field team coached by Dr. Earl Baker will go to the flat water region of Nebraska for a triangular contest at Crete today.

After the competition at Graceland, the 'Cats will move into the Missouri Intercollegiate Athletic Association indoor

Swimmers lose to title holders

Southwest Missouri State College's defending Missouri Intercollegiate Athletic Association championship swim team swept to first place finishes in 11 of 13 events in a dual meet with the Bearcats, Saturday, 76-37.

The loss dropped MSC's dual record to 7-5 and followed Friday's 83-29 win over Kansas State College, Pittsburg.

Two members of Coach Lewis Dyche's team finished first, with freshman Matt Blafora winning the 200 butterfly with a time of 2:18.7, and senior Vic Konecny compiling a 137.40 total in the one-meter optional diving.

Intramural play-offs to start Tuesday

Basketball intramural play-offs will get underway Tuesday night as the top two teams from the leagues of the fraternity and independent divisions vie for title honors.

The fraternity division participants includes three teams from Phi Sigma Epsilon, two from Sigma Tau Gamma, and one each from Tau Kappa Epsilon, Alpha Kappa Lambda, and Delta Sigma Phi.

The independent division boasts the Panthers (1 & 2), Crabs, Knicks, Roadrunners, BearKats, Footballers II, and the Iowans.

MSC hosts tourney

MSC will be host at a Missouri High School Class S Regional Basketball tournament in Lamkin Gymnasium this week.

championships slated for March 18 at Columbia.

The Bearcats will be looking for their third consecutive victory, and will be opposed by homestanding Doane College and Nebraska Wesleyan. Meet time is 5 p.m. in Fuher Field.

Today's competition marks the 'Cat's first out of state contest this season, and their first away from Wentworth Military Academy field house at Lexington.

The Bearcat's first victory of the current campaign came at the expense of Central Missouri State as MSC took the dual meet by a 74-52 margin. In win No. 2 the 'Cats outdistanced Central Missouri, William Jewell, and Ottawa by a score of 108½ to 69, 45, 17½ points, respectively.

Although the Bearcats have failed to surpass any school records this season, they have turned in several reputable times and measurements while honing their athletic talents to the utmost for the final regular season meet March 4 at Graceland College.

Locker Talk

by Roger Ferry

In the January '72 issue of "The Christian Athlete" an interesting, yet provocative, article appeared comparing sports to, of all things, war.

Throughout the story, the author uses various examples in sports for reference, his most interesting being that of a typical college football game.

"I attended the game today. There, war has become an institution for amusement... a deadly dance... a tragic ritual."

In summary, his story follows:

"There were 60,000 fans in the stadium but it could have been fourteen parents at a Little League ball park... it really doesn't matter. It happens everywhere... everyday... and everyone participates.

"One army charges onto the field. Maneuvers commence. Footballs boom across the battlefield during the uneasy pre-war peace. The enemy enters the field... and the arms race begins. Muscles flexed, war paint applied, equipment adjusted.

"Battle-hardened veterans and students of war coldly analyze the strength and power of the respective teams from vantage points high above the field of battle. The inevitable decision: the victor will be the regiment with the best morale, the team that 'came to fight.'

"The time nears; the crowd gets restless. Marches and fight songs blare from the bands. The frenzy grows and the contamination spreads. Shouts of 'murder the bums' and 'kill 'em' fill the air. A hymn is sung; but any more than the National Anthem is but a fragment to the entire operation. The frenzy continues... swelling and growing until the entire stadium turns into an uncontrollable monster.

"War is then declared. The troops mass in formation in their own territory. The referees desert the zone, take a deep breath and blow the whistle. At the sound, the troops race towards each other in something less than controlled violence. Collisions are numerous. Casualties occur — some minor, some not. The troops retreat, regroup, and plan the next skirmish.

"They clash... retreat, over and over. Ground is won and lost. Battle fatigue sets in, and the casualties increase.

"The pre-arranged cease fire finally arrives. Half time; a Tet New Year in a Saturday war. No one knows which team will benefit the most from the cease fire." So, the fans stretch and the vendors get into their 'rush hour.'

The folks in the stands and back home use the cease fire to reminisce about the first half and speculate on the forthcoming renewal of battle. They think only of winning and shun any thought of losing, yet the thought of being humiliated before the enemy is on everyone's mind. As the second half of battle begins both fans and players know that there will be no negotiated peace. One army will be conquered, the other victorious. The drama proceeds; clash... retreat, again and again.

The years pass, and the wars continue. Be it basketball, track, hockey or whatever — they all tell the same story. The fans, players, and coaches of all sports; all apparent 'sportsmonsters' with but one thing in mind. Like a warmonger in war they seem to participate for only the violence in sport, substituting the sports arena for the battlefield. The true form of entertainment and enjoyment of the sports scene has disappeared. Sport is war... and vice versa.

But is this how it really is in today's sports world? To people like author Jerry Pyle, it is. These so-called sportsmonsters, do they really exist and if so, is there a difference between a true sportsman and say, a sportsmonster? I certainly hope so. Perhaps the entire issue is a gross overstatement. On the other hand, maybe it's the hard-core truth. It's something that each person can decide for himself.

The decision is yours.

Tigers down 'Cats to cop title

Lincoln University downed the Bearcats for the second time this year as they handed Coach Bob Iglehart's crew a 69-65 setback in Lamkin Gymnasium last week.

The victory enabled Lincoln to keep a perfect MIAA slate and assured the Tigers of their first conference title, while the 'Cats saw their record drop to 2-8 and 8-16 overall.

The two teams battled on even terms throughout the game until the final seconds when the Tigers canned six consecutive free throws to put the contest out of the

'Cats' reach.

The Bearcats were again unable to handle LaMont Pruitt, who led all scorers with 21 points. Ben Young, Clarence Gant, and James Parchman followed with 16, 12, and 11 tallies, respectively.

Don Nelson and Jim Porter each finished with 16 points to pace the Bearcats.

The Tigers also took the rebounding honors with a 52-47 edge on the boards, although Nelson set a season high for MSC with 16 rebounds.
